

We trust you noticed a significant difference: The standards-based report card contains proficiency scores for each standard taught and assessed during the marking period while the traditional approach merely employs the use of "x" to indicate an area of concern. We realize parents are more familiar with the concept of overall grades for each subject and may feel some concern about their planned elimination. However, we hope all will understand that this change is in alignment with what really should be the priority here -- student mastery of necessary skills and objectives rather than a final score.

The standards-based report card also includes changes to the process skills of *Citizenship* and *Work Habits*. This change better reflects the 21st century skills students should master as outlined in the division's strategic plan, *Compass to 2015*.

TRADITIONAL REPORT CARD

	1 st	2 nd	3 rd	4 th
CITIZENSHIP Teacher	S	S	S

Your feedback is important to us as we finalize the report card. A web page has been set up to provide more detailed information: www.vbschools.com/elementaryreportcard. Also, an email has been established for your questions, comments and concerns, elementaryreportcard@vbschools.com. Please contact your child's school if you have other questions. Thank you for your continued support of your child's school.

Sincerely,

Jeanne Crocker
